#### § 413.1 Scope.

This part prescribes the procedures applicable to all applications submitted under this chapter to conduct licensed activities. These procedures apply to applications for issuance of a license, transfer of an existing license and renewal of an existing license. More specific requirements applicable to obtaining a launch license or a license to operate a launch site are contained in parts 415 and 417 of this chapter, respectively.

#### § 413.3 Who must obtain a license.

(a) Any person must obtain a license to launch a launch vehicle from the United States or a license to operate a launch site within the United States.

(b) An individual who is a United States citizen or an entity organized or existing under the laws of the United States or any state must obtain a license to launch a launch vehicle outside of the United States or a license to operate a launch site outside of the United States.

(c) A foreign entity in which a United States citizen has a controlling interest, as defined in section 401.5 of this chapter, must obtain a launch license to launch a launch vehicle from or a license to operate a launch site within—

(1) Any place that is both outside the United States and outside the territory of any foreign nation, unless there is an agreement in force between the United States and a foreign nation providing that such foreign nation shall exercise jurisdiction over the launch or the operation of the launch site; or

(2) The territory of any foreign nation if there is an agreement in force between the United States and that foreign nation providing that the United States shall exercise jurisdiction over the launch or the operation of the launch site.

#### § 413.5 Pre-application consultation.

A prospective applicant shall consult with the FAA before submitting an application to discuss the application process and potential issues relevant to the FAA's licensing decision. Early consultation enables an applicant to identify potential licensing issues at the planning stage when changes to a license application or to proposed licensed activities are less likely to result in significant delay or costs to the applicant.

#### § 413.7 Application.

(a) *Form.* An application must be in writing, in English and filed in duplicate with the Federal Aviation Administration, Associate Administrator for Commercial Space Transportation, AST-200, Room 331, 800 Independence Avenue, S.W., Washington, D.C. 20591. Attention: Licensing and Safety Division, Application Review.

(b) *Administrative information.* An application must identify the following:

(1) The name and address of the applicant;

(2) The name, address, and telephone number of any person to whom inquiries and correspondence should be directed; and

(3) The type of license for which the applicant is applying.

(c) *Signature and certification of accuracy.* An application must be legibly signed, dated, and certified as true, complete, and accurate by one of the following:
